8. Does your research involve human subjects?

- No

9. Will you process any personal data? Tick all that apply (leave all unchecked if you do not process any personal data)

- None of the above apply

TU Delft questions about management of personal research data

1. Please detail what type of personal data will you collect, for what purpose, how will you store and protect that data.

Question not answered.

2. Will you be sharing personal data with individuals/organisations outside of the EEA (European Economic Area)?

3. What is the legal ground for personal data processing?

Question not answered.

4. Will the personal data be shared with others after the end of the research project, and if so, how and for what purpose?

Question not answered.

5. Does the processing of the personal data results in a high risk to the data subjects?

If the processing of the personal data results in a high risk to the data subjects, it is required to perform a Data Protection Impact Assessment (DPIA). In order to determine if there is a high risk for the data subjects, please check if any of the options below that are applicable to the processing of the personal data during your research (check all that apply).
If two or more of the options listed below apply, you will have to [complete the DPIA](). Please get in touch with the privacy team: [privacy-tud@tudelft.nl]() to receive support with DPIA. If only one of the options listed below applies, your project might need a DPIA. Please get in touch with the privacy team: [privacy-tud@tudelft.nl]() to get advice as to whether DPIA is necessary.

If you have any additional comments, please add them in the box below.
